

PURCHASER

Brandt Agricultural Products Ltd. has a career opportunity available for a Purchaser.

Reporting to the Manufacturing Manager, responsibilities will include; sourcing and purchasing materials for all products manufactured by BAPL; monitoring vendor performance for on-time delivery, quality and quantity; and inputting current material costs into the manufacturing package for accurate product costing, while ensuring that inventory levels are maintained within established guidelines.

Candidates will have a minimum of 3 years purchasing experience in a steel manufacturing environment, and be a PMAC member, working towards a CPP designation. Candidates must also be familiar with Microsoft Excel, Word and Outlook. Familiarity with a manufacturing resource package would be an asset.

This position offers a competitive salary and a comprehensive benefits package.

Only those candidates selected for an interview will be contacted.

Brandt Agricultural Products Ltd. manufactures agricultural equipment and markets these products through a dealer network in North America, Europe and Australia.
